Note: Minor variances in data reports are normal and stabilize over time. Variances result from closing or correcting records after the first of the month. These minor variances do not affect the overall trends conveyed in the reports. Corrections include: updating incorrect or missing outcome types or dates, removing duplicate records, and correcting user input errors discovered in routine data audits conducted by shelter supervisors and administrative staff.

**Procedures in FY05 dictated individual citations to be written for each violation. Changes in procedures over the last several years now allow for multiple violations to be written per citation.*

Note: Minor variances in data reports are normal and stabilize over time. Variances result from closing or correcting records after the first of the month. These minor variances do not affect the overall trends conveyed in the reports. Corrections include: updating incorrect or missing outcome types or dates, removing duplicate records, and correcting user input errors discovered in routine data audits conducted by shelter supervisors and administrative staff.
