The information contained herein shall not be construed as implying or suggesting that the City of Dallas is offering or is under any obligation to provide tax abatement or other incentives to any applicant, and all applicants shall be considered on a case-by-case basis. Pawnshops, Sexually Oriented Businesses, Bars, Trucks Stops and Truck Dealerships are excluded from consideration for incentives provided under this program.

- Firms willing to pay at or above Living Wage levels for certain job classifications may be considered for 10% bonus tax abatement.

## City of Dallas Public/Private Partnership Program Summary for Non-Residential Projects

### City of Dallas Public/Private Programs

It is the purpose of the following programs to provide assistance only for projects where such assistance is necessary to stimulate private investment. Accordingly, these programs are available when agreements between the City and private parties that are not tax-exempt are approved by City Council prior to private investment occurring. Projects seeking economic incentives must provide written assurance that 'but for' the incentives sought, the proposed project would be substantially altered such that the economic returns to the city would be reduced or the project would not otherwise occur in the city. Projects occurring in Southern Dallas and Strategic Investment Areas are provided special consideration.

### Tax Abatement

Temporary abatement of either real estate or business personal property taxes for a period not to exceed 10 years. In limited cases, Southern Dallas projects may be considered for a combination of both real and personal property tax abatement when the combined amount does not exceed 90 percent of the City taxes on total new improvement value. Recipient firms provide initial certification of required improvements and annual certification of job requirement. City staff may consider Dallas resident employment, contracting with local and minority and women owned businesses, efforts to exceed minimum environmental regulations, wage rates, community activities, and target industry projects when negotiating this incentive. In support of the City's M/WBE Program, a goal is set that two-thirds of the City's real property tax abatement agreements for new construction include a Fair Share and local contractor component. Real property tax abatement is not available in TIF Districts within the Central Business District (CBD) or in portions of the Downtown Connection TIF District located outside the CBD. All financial incentive terms must begin by January 1 of the second calendar year following City Council authorization.

### Infrastructure Cost Participation

Without complying with competitive sealed bidding procedure, the City may participate in the costs of constructing infrastructure improvements at a level not to exceed 30 percent of the total contract price or at a level not to exceed 100 percent of the total cost for any over sizing of improvements required by the City, including, but not limited to increased capacity of the of improvements to future development in the area. Projects wherein City participation exceeds 30 percent of infrastructure costs require compliance with public competitive sealed bidding procedures.

### Development Fee Rebates

On a 'case by case' basis the City may approve an economic development grant in the amount of fees charged in the regulation of land development on a not-to-exceed basis. The rebate is payable after a Certificate of Occupancy is issued and contingent upon funding availability.

### ROW Abandonment Rebates and Credits

City may approve an economic development grant in the amount of monetary fees charged by the City for abandonment of public right-of-way and contingent upon funding availability. Such rebates are payable after City issues a Certificate of Occupancy; credits are offset against the costs of constructing certain negotiated public improvements which are not otherwise required of the developer.

### Business Development Grant Program

Companies considering a relocation/expansion in the city of Dallas may be eligible for a grant in lieu of tax abatement or to defray project costs such as: land purchase, building costs, loan guarantees, training costs, relocation costs, etc. Grants will be considered on a case-by-case basis and are subject funding limitations. Companies will be required to meet eligibility requirements of the Public/Private Partnership Program.

### Transit-Oriented Development (TOD) Program

Minimum eligibility for consideration of city incentives through the Public/Private Partnership Program will require a cumulative investment of \$300 million for new mixed-use, commercial, retail and/or residential development in proximity of at least two DART light-rail transit (with one or both in Southern Dallas) stations. TOD projects are eligible for consideration for the full complement of necessary and appropriate incentives available through this program including, but not limited to, tax increment financing, tax abatement, grants and loans, infrastructure cost participation. Residential developments seeking incentives will be required to have a 20 percent affordable housing set aside in North Dallas and mixed-income housing in Southern Dallas. Further, projects must meet the City's established Good Faith Effort guidelines for M/WBE participation.

### Economic Development GO Bond Program for Southern Dallas

General Obligation Bond funding may be used as described in this paragraph for private commercial, industrial, retail, residential, and mixed-use development in the Southern area of the city that promotes economic development. Funding may be provided as a catalyst to promote private economic development and may be used for planning, designing, extending, constructing and acquiring land for public streets, utilities and other related infrastructure facilities or uses consistent with this purpose. Funding is also available in support of mixed-use or residential development, for the acquisition of improved and unimproved properties and for the cost of demolition of existing structures. Private developments may be eligible for economic development grants and loans pursuant to Chapter 380 of the Texas Local Government Code. Grants and loans will be considered for infrastructure improvements and/or land acquisition consistent with the scope of funding and other uses described above. Grants or loans will be considered on a 'case by case' basis subject to funding limitations and development agreements approved by City Council, which agreements will contain appropriate conditions, safeguards and benchmarks to ensure that the public purpose of economic development will be carried out. Further it is anticipated that resources and other forms of development assistance from other applicable City economic development programs may be utilized to support this program.

# City of Dallas Public/Private Partnership Program Summary for Non-Residential Projects

## Local Government Corporation (LGC) Grant Program

The City of Dallas will consider making grants from its general fund to a LGC, subject to annual appropriation of funds and the approval of the Dallas City Council. These funds will be restricted to the payment of project costs, including the payment of debt service on any bonds issued by the LGC to finance project costs, and the funding of any necessary reserve fund or capitalized interest accounts and the payment of the cost of issuance of bonds.

## Target Industry Projects

Target Industry projects are generally defined as follows: Brownfields or recycling, information technology, building materials, media, advanced instruments and food processing/distribution. Target Industry projects must be confirmed in advance by the City in order to receive consideration under this designation.

## Non-Conforming Projects

Non-Conforming projects are considered on a case by case basis for high impact projects, unique developments and competitive situations where projects may receive competing offers of incentives. These projects require a simple majority vote of City Council in Southern Dallas and a 3/4 vote of City Council in the CBD and in Northern Dallas. High Impact Project - Projects creating/retaining a minimum of 500 jobs with substantial capital investment. In addition, this status may be granted to major projects by Fortune 500, Manufacturers 400 or Global 500 listed firms.

## Unique and Special Developments

Projects which have a metro-wide market area, and bring significant outside income into the City's economy and/or non-residential projects located in blighted areas as defined by the reinvestment zone provision in the Property Redevelopment and Tax Abatement Act.

## Competitive and Retention Projects

In special cases, companies receiving competing offers of incentives or those currently located in the city of Dallas considering a relocation/expansion are eligible to apply for financial incentives with negotiable terms. Existing firms must expand job base by 25 percent to be eligible for consideration. Incentives may be offered in specific cases to 'match other offers.' Companies may be required to demonstrate competing cities, offers, land/lease costs, taxes at current rates, utility rates, relocation costs, other significant costs and 'gap' to be filled, etc.

## Brownfields

Brownfields program may provide no-cost Phase I and Phase II Environmental Site Assessments for eligible properties. To be eligible, each site must: be within City limits and abandoned or underutilized; have a near-term economic redevelopment plan; not be under federal or state enforcement actions or a Resource Conservation and Recovery Act (RCRA) permitted facility. In addition, the owner and

applicant must authorize, in writing, permission to designate the site a Brownfield and applicant or prospective purchaser will consider entering site into the Texas Voluntary Cleanup Program. Brownfield sites are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.

## Other Sources of Financial Assistance

### Tax Increment Districts

Special districts funding public improvements (not services) with increased tax revenues resulting from new private development. Tax rates are the same as elsewhere in the City and no added cost to private parties is incurred.

### Public Improvement Districts

Special districts created by petition to privately fund public improvements or special supplemental services over and above those provided by City, when such services are supportive of related City investments in capital improvements.

### Public Improvement Districts

Special districts created by petition to privately fund public improvements or special supplemental services over and above those provided by City, when such services are supportive of related City investments in capital improvements.

### Freight Exemption

The City offers property tax exemption on eligible goods 'in transit-those to be sent out of state within 175 days from acquisition to be assembled, stored, manufactured, processed or fabricated. Oil and natural gas do not qualify.

### Foreign Trade Zone

Allows duty-free importing of foreign-made components into the Zone, where they may be assembled, manufactured, processed or packaged. Duties are charged only when products are subsequently distributed into the U.S. market- if they are shipped to international markets, no duty is levied.

### Enterprise Zone Project Designation (State)

For qualified and approved businesses of 100 or more new jobs to the state of Texas, the City may apply to the State to rebate sales and use taxes paid, on a per-job basis. Also available is a reduction on a firm's franchise tax.

### Grants and Loans

For qualified and approved businesses, the City will consider special programs for loans and grants to promote local economic development.

To obtain more detail on these programs, or to inquire regarding other assistance, contact: Office of Economic Development, Dallas City Hall, Room 5CS, Dallas, Texas 75201, Phone: (214) 670-1685, Fax: (214) 670-0158

## City of Dallas Public/Private Partnership Program Summary for Non-Residential Projects

### City of Dallas Public/Private Partnership Program Guidelines and Criteria Summary for Residential Projects

#### City of Dallas Public/Private Programs

It is the purpose of the following program to provide assistance for projects in the Central Business District (the "CBD") only where such assistance is necessary to stimulate private investment. Accordingly, this program is available when agreements between the City and private parties that are not tax-exempt are approved by City Council prior to private investment occurring. Projects seeking economic incentives must provide written assurance that "but for" the incentives sought, the proposed project would be substantially altered such that the economic returns to the city would be reduced or the project would not otherwise occur in the city.

#### Tax Abatement / Grant in Lieu of Tax Abatement

These mechanisms will allow for temporary abatement of real estate property taxes or economic development grants in lieu of tax abatement for an amount not to exceed 90 percent of the City's taxes on the total new improvement value of a property for a period of up to 10 years. To qualify for this type of incentive the project must be a residential project within the Downtown Freeway Loop but outside the Downtown Connection or City Center TIF District during the term of each district. A "Residential Project" receiving tax abatement must be a development or redevelopment that will create a minimum of 75 additional residential units, will have more than four floors and will include a minimum of \$15,000,000 in private investment. The residential development must be developed in conjunction with another development project located within either the Downtown Connection or City Center TIF Districts and within the CBD downtown freeway loop by the same or affiliated developer/owner. The second project not receiving tax abatement must have a minimum of 75 residential units, \$15,000,000 in private investment, and have more than four floors. Catalyst projects that create a minimum of 375 residential units and \$55,000,000 in private investment may have the two project criteria waived.

Non-conforming projects within the Central Business District are considered on a case by case basis and may be approved by a super majority (three-fourths) vote from the voting members of City Council.

Any developer receiving incentives for a residential project must verify the completion of the required improvements to City Staff and complete all contingencies outlined in the agreement. In support of the City's Good Faith Effort Program, a goal is set that two-thirds of the City's real property tax abatement agreements or economic development grants in lieu of tax abatement agreements include a Fair Share and local contractor component. In addition, all residential projects approved for tax abatement or such economic development grants will be subject to a ten percent affordable housing set-aside requirement. All Residential Project incentives are provided at the City's discretion and are subject to City Council approval.

For residential development projects that are rental-occupied, the tax abatement agreements will outline all required contingencies that must be met before tax abatements may be granted each year. The agreement may only be entered into with the developer/owner of the project.

For residential development projects that are owner-occupied, the economic development grant agreements will outline all required contingencies that must be met before grant payments will be made each year. An agreement may be entered into with the developer/owner of the project. In addition, economic development grant amounts will be determined as of January 31<sup>st</sup> of every year the agreement is active based on applicable tax payments made.
