

Florida Offender Alert System

The Florida Department of Law Enforcement along with local law enforcement have added a new feature to the statewide sex offender/predator website. Citizens can now sign up to receive an e-mail alert when a registered sexual offender or predator moves into their neighborhood or within a radius of any designated location. Citizens can also track address changes reported by selected offenders or predators. You can monitor an unlimited number of addresses or offenders/predators. The service is offered statewide at no charge.

Criminal Justice encourages you to sign up for this important service and to register your home address, as well as locations such as your child's school or daycare, your workplace, and any location that you and your family may frequent. You can sign up through at: www.flsexoffender.net
