

## **Building Services Main Location Moves Back To County Center**

Hillsborough County's Building Services Division has closed its doors to its main customer service location in the NetPark business complex. It has moved back to [County Center](#) (601 E. Kennedy Blvd. in downtown Tampa) on the 19th Floor in order to save money and consolidate its services.

The following services and staff are now available at this new location: the Building Official, residential and commercial plans review and permitting, sign permitting, contractor licensing and code compliance, and hazard mitigation. The [South County satellite office in Ruskin](#) will continue to offer the same services of residential plans review and permitting, and the Division's inspection staff will be housed there.

As part of this consolidation effort, the Planning & Growth Management Department also has opened a consolidated customer service one-stop center on the 19th Floor for the residents and contractors that it assists. In addition to the service windows that will be available for Building Services, such as contractor licensing, permitting requests, plans review and code compliance, the other Department Divisions also will house their customer service windows there. This includes zoning requests and information, and site plan and subdivision intake.
